Summary

Frontend Developer with 4+ years of experience in building user interfaces and e-commerce projects. Specialized in Vue.js (2/3, Composition API, Options API), component development, design system integration, and UI/UX optimization. Built a Vue.js application for automating product import into an e-commerce store, enabling efficient handling of variable products, attributes, and SEO content. Skilled in responsive layouts from Figma designs, Vuetify customization, and working with third-party libraries (Swiper Element). Strong focus on debugging, cross-browser testing (BrowserStack), and teamwork with frontend/backend developers.

Work Experience

Frontend Developer (Vue.js 2/3)

2023 – Present

- Developed Vue.js components (Composition API / Options API).
- Implemented responsive layouts based on Figma and other design sources.
- Migrated design system into the project: global SCSS files (variables, mixins, helpers).
- Customized and extended Vuetify components.
- Built and maintained components using Swiper Element.
- Integrated business logic and connected with APIs.
- Conducted UI testing (BrowserStack, cross-browser validation).
- Utilized supporting JavaScript libraries within components.
- Collaborated with frontend/backend teams and participated in code reviews.

Web / E-commerce Developer

OkDveri, 02.2019 – 10.2023

- Built and maintained the e-commerce store okdveri.com.ua using WordPress + Elementor Pro.
- Developed a Vue.js application to automate product catalog import (variable products, attributes, SEO texts), which significantly reduced import time and improved data management efficiency.
- Optimized UI/UX of the store, leading to higher conversion rates.
- Delivered Pixel-Perfect responsive layouts.
- Created SEO-friendly content, illustrations, and marketing materials.
- Structured categories and product attributes for improved navigation.
- Managed hosting, Google services, and social media campaigns.

Other Professional Experience

NCH Advisors Inc., 1996 – 2017

- Securities Transaction Specialist (2002–2017): managed investment and custody accounts, executed securities settlements, collaborated with local/foreign banks and custodians.
- System Administrator (1996–2002): maintained office network, NetWare/FreeBSD servers, provided IT support.

Skills

Frontend Development: Vue.js (2/3, Composition API, Options API), Pinia, Vuex, Vue Router, Vuetify, Swiper Element, JavaScript (ES6+), TypeScript, RESTful APIs

UI/UX & Styling: HTML5, CSS3, SCSS, Responsive Design, Pixel Perfect, Figma, UI/UX Principles

Tools & Workflow: Webpack, Git, BrowserStack, Corel Draw, Adobe Photoshop (basic)

Additional: Cross-browser compatibility, Debugging, Performance optimization, Team collaboration

Education

Economical Institute of Management, Kyiv

Specialist in Management

Certificates

- JavaScript Essential (ITDVN, 2021)
- JavaScript Patterns (ITDVN)
- HTML / CSS (ITDVN)
